On call 24/7 Recovery at Home is a rapid response service and delivers short-term care to people at home. 'Home' includes extra care, residential, nursing homes.

It is a unique service that brings together a wide range of health and social care professionals as **one team in one place** to help prevent people going into hospital if they don't need to be there and to support people who've been discharged from hospital, but who need a little extra help to get back on their feet.

Recovery at Home is for Sunderland residents who need extra short-term support and the professionals, carers and family members who support them.
